Rohrbaugh R9
The Ultimate Concealment Firearm

A True Breakthrough In Personal Protection.

The dream of a truly effective smaller firearm has finally been realized – the Rohrbaugh 9mm semi-automatic pistol.

Unlike typical reduced-size firearms offered by the major manufacturers, the Rohrbaugh 9mm is not simply a conventional handgun with the barrel and grip cut down. Rather, it has been rethought, redesigned and retooled from square one. The result: an ultimate-quality pistol that's uniquely easy to carry, easy to conceal and easy to use.

What top shooters are saying about the Rohrbaugh R9...

"I am seriously impressed. For a shooter seeking a backup gun, this little piece is one of a very small group that I would enthusiastically recommend."

Wiley Clapp, Handgun Editor, Guns & Ammo Magazine

"As a longtime specialist in the making of concealment holsters, all I can say is that I love it when the gun industry comes up with a product that makes my job easier. The R9S is such a product."

Tony Kanaley, President, Milt Sparks Holsters, Inc.

"From the philharmonic hall to the fishing trip, the R9 is my constant companion. It's one great gun!"

Terry Tussey, Tussey Custom Guns

"Since receiving my R9S, it has traveled with me unseen in places where a larger pistol would certainly be noticed. The fact that it also is chambered in 9mm gives a sense of security not found in .32's or .380's."

Wayne Novak, Founder, Novak Sights

"The Rohrbaugh R9 is the epitome of the high-powered pocket pistol. With this pistol, Karl Rohrbaugh has achieved a true milestone in modern pistol design."

Duane A. Daiker, Contributing Editor, Concealed Carry Magazine

"The Rohrbaugh R9 and R9S show outstanding workmanship, and the materials used are of the highest quality. For its purpose, it is perfect."

J. B. Wood, Writer, Harris Publications, Handguns

"Your Rohrbaugh (R9) 9mm is the greatest backup gun in the world."

Jim Cirillo, NYPD Officer and writer, instructor

"The Rohrbaugh R9 has become my everyday carry gun. When in uniform, it's the logical backup to my duty pistol. When not in uniform, it's comfortably concealed and I am able to dress professionally with my shirt tucked in, and no jacket, using my ITP holster."

Brian Hoffner, radio talk show host of "Defending America" and President, Hoffner's Training Academy

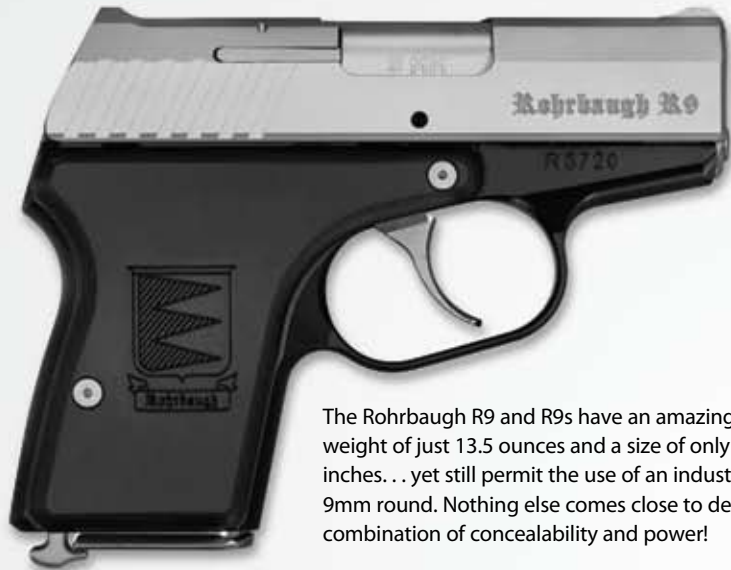

"An outstanding piece! I put a hundred or so rounds of various manufactured ammo through it with no problems whatsoever. The workmanship shows nothing but quality and attention to detail. I'm quite happy with the little rascal!"

CT Brian, Master Pistolsmith

"[The R9 pistol] caused what might properly be called a 'change in the force' when it comes to the concealed carry concept. Rohrbaugh took design ideas working in the 'big' world and 'miniaturized' them to fit their needs. It really is 'Old World' craftsmanship and quality. I liked this gun ... Lots."

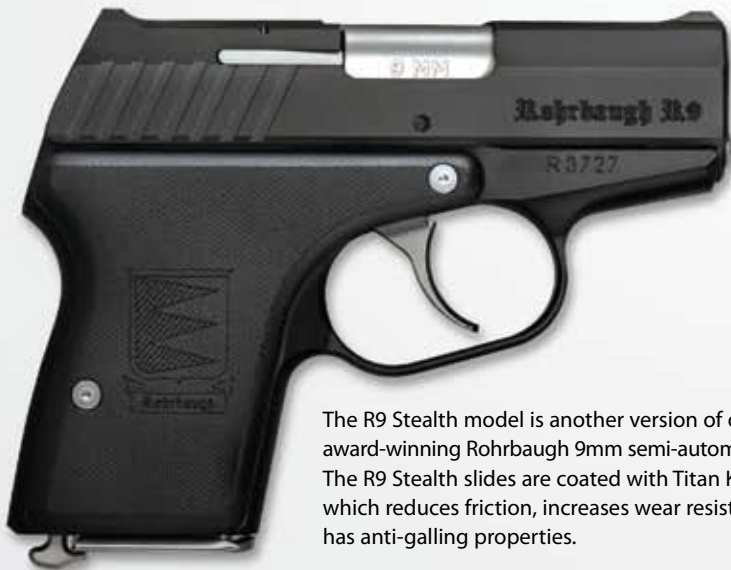

Roy Huntington, Editor, American Handgunner Magazine

The Rohrbaugh R9•R9s Standard 9mm Handgun

The Rohrbaugh R9 and R9s have an amazing unloaded weight of just 13.5 ounces and a size of only 3.7 by 5.2 inches. . . yet still permit the use of an industry-standard 9mm round. Nothing else comes close to delivering that combination of concealability and power!

The Rohrbaugh R9•R9s Stealth 9mm Handgun

The R9 Stealth model is another version of our award-winning Rohrbaugh 9mm semi-automatic pistol. The R9 Stealth slides are coated with Titan Kote C12, which reduces friction, increases wear resistance and has anti-galling properties.

Manufactured to Exacting Standards

- A true example of functional art, the R9 and R9s are manufactured utilizing state-of-the-art CNC machinery to exacting tolerances.
- Constructed of the highest grade stainless steel and aircraft aluminum alloy for low maintenance and rust-resistant properties against moisture and perspiration.
- Small enough and light enough to carry with no constrictions at all times.
- Easy and fast to get into action.
- Devoid of any sharp edges, so as to not wear holes in clothing, handbags, etc.
- Mechanism is simple and easy to disassemble and reassemble so the proper maintenance can be done by anyone, and so that functioning reliability can be maintained.
- The slide-to-frame fit is designed to keep dust and lint out of the mechanisms.
- This handgun is available without (R9) or with (R9s) sights

Caliber: 9mm
Barrel: 2.9 in.
Overall length: 5.2 in.
Overall height: 3.7 in.
Unloaded weight: 13.5 oz
Magazine capacity: 6 rounds

The Rohrbaugh 380-380s Standard Handgun

Rohrbaugh adapted the award-winning design of the R9 to create an exceptionally high quality 380 caliber pistol.

The Rohrbaugh 380-380s Stealth Handgun

Caliber: .380
Barrel: 2.9 in.
Overall length: 5.2 in.
Overall height: 3.7 in.
Unloaded weight: 13.5 oz
Magazine capacity: 6 rounds

The Rohrbaugh/Robar 9mm Handgun

Rohrbaugh is excited to introduce a version of our award-winning R9 pistol incorporating Robar Custom's advanced NP3 coating. NP3 is a surface treatment for steel and metal alloys that combines sub-micron particles of PTFE (polytetrafluoroethylene) – otherwise known as Teflon – with electroless nickel. NP3 has a high lubricity and low friction co-efficient; the reduced friction wear greatly increases the life expectancy of the firearm.

The Rohrbaugh/Robar process:

All parts are hand-selected and inspected to ensure they are to spec and of the highest quality. The pistol is then carefully crafted, hand-fit and tested. Upon completion, the pistol is disassembled, cleaned and inspected. The slide, barrel, frame and trigger are then sent to Robar for NP3 coating. After coating is applied, we implement final assembly.

Advantages of NP3 include:

- Very accurate and even coating on all activated surfaces.
- No lubrication is needed on opposing surfaces.
- Cleaning is minimal, usually requiring only a soft cloth.
- Permits firing for longer periods of time between cleanings, as dirt and powder residue has no wet or oily surface to cling to.
- Micro hardness of 48-51 Rockwell as plated (nickel matrix).
- Very corrosion resistant.

Caliber: 9mm
Barrel: 2.9 in.
Overall length: 5.2 in.
Overall height: 3.7 in.
Unloaded weight: 13.5 oz
Magazine capacity: 6 rounds

Apache Ankle Rig Style 062

The Apache's wide, elasticized leg band largely eliminates the unwanted rocking motion commonly associated with ankle holsters. The Apache is made exclusively for Rohrbaugh pistols and is padded with genuine sheepskin lining for comfort. We could have made a fancy, exotic leather ankle holster and charged a handsome price, but we didn't because none will perform as well as an Apache.

Available in Right and Left hand styles.
